
Transportation Timetables, 1880-2007

MSS: # 016
Volume: 10 boxes

Processed by: Jason Freitas, December 2014

Abstract: Timetables for railroads, bus companies, airlines, steamship, and boat transportation companies comprise this collection. The collection was accumulated over the course of about fifty years by various individuals. Though the bulk of items date from the 1940's to the 1960's, earlier and later periods are also well-represented. The majority of the collection consists of both employee and public timetables from railroads of New England, with other items coming from New York and Canadian railroads, a wide variety of smaller New England railroads, bus and steamship companies, and railway companies that preceded the Massachusetts Bay Transportation Authority.

Collection Creator: Beverly Historical Society, Walker Transportation Collection

Provenance: This collection has been amassed through various donors since 1969.

Conservation/Processor's Note: The majority of items consist of saddle-stitched booklets and folded pamphlets. Modern items are more likely to be plastic-coated or synthetic paper and in good condition. Items older than the 1960's are generally more fragile and should be handled with care. Four different box shapes are used to accommodate the variety of shapes and sizes: standard letter-size boxes for booklets and fragile pamphlets, flip-top pamphlet boxes for sturdier pamphlets, flip-top photo boxes for pocket pamphlets under seven inches, and custom-size boxes for unique items. "Folders" in the pamphlet and photo boxes are not actually folders, but dividers that sit in front of the items they describe.

Copyright: Request for permission to publish material from the collection must be submitted in writing to the Curator of Collections in the Cabot House of the Beverly Historical Society & Museum.

Preferred Citation: [Title of Document], Transportation Timetables, Beverly Historical Society and Museum, 117 Cabot Street, Beverly, MA 01915.

Biographical or Historical Note:

TBD

Scope and Content Note:

The collection includes both employee and public timetables for various forms of transportation, most notably for major railroad companies of New England. Timetable books used by railroad employees are mainly booklets that span the late 1800's through the mid-twentieth century. Public timetables for railroads, railway companies, bus and coach services, airlines, and steamboat, boat and ferry services come in various-sized pamphlets and span the entire twentieth century. Also included are a few miscellaneous items of interest, such as train tickets and system maps for Massachusetts Bay Transportation Authority.

Related Materials:

None.

Series List:

The collection is arranged into ten series:

- Series I: Nation-wide transportation companies of the United States, 1940-1995
- Series II: Transportation companies of Connecticut, 1903-2000
- Series III: Transportation companies of Maine, 1897-1980
- Series IV: Transportation companies of Massachusetts, ca. 1880-2007
- Series V: Transportation companies of New Hampshire, 1937-1987
- Series VI: Transportation companies of New York, 1937-1988
- Series VII: Transportation companies of Rhode Island, 1953-1969
- Series VIII: Transportation companies of Vermont, 1900-1995
- Series IX: Transportation companies of Canada, 1957-1998
- Series X: Other companies, 1900-n.d.

Container List:Series I: **Nation-wide transportation companies of the United States, 1940-1995**

Series/Arrangement Note: Arranged alphabetically by form of transportation, company name, and date range. Similar items may be spread across multiple folders for reasons of size and condition. In cases where a single item covers multiple forms of transportation, it is filed with the apparently predominant form. Smaller transportation companies and companies for which there are few items are combined into one folder per form of transportation. Folders with items from multiple companies follow those that represent individual companies. Items within each folder are arranged by company name and date wherever possible.
